

## Health & Safety Policy

Mobile Mini is committed to the prevention of injury and ill health for all people working for or on behalf of the business as well as those who may be affected by our acts or omissions. This is an integral part of our business and is our number one priority.

Mobile Mini will, by joint consultation and joint involvement of management and employees enlist the active interest, participation and support of employees in promoting good standards.

Mobile Mini will comply with all relevant legislation, and will exceed the minimum requirements as detailed in statutory guidance notes and approved codes of practice. The organisation's health and safety objective is to achieve an accident free workplace.

Mobile Mini recognises and accepts our duty to protect the health and safety of all visitors to the company, including contractors and temporary workers, as well as members of the public who may be affected by our operations.

All employees will be provided with such equipment, information, training inclusive of induction training and supervision as is necessary to implement the policy of zero accidents

All employees, sub-contractors and visitors are expected to co-operate and assist in the implementation of the policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others or the environment. This includes co-operating with management on any health, safety or environmental related matter.

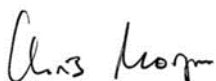

Mobile Mini shall take all practical steps to ensure that potential hazards and risks are identified and that suitable and effective preventative control measures are implemented.

Sufficient resources will be allocated. These include revenue and capital expenditure, competent staff, information, specialist advice and training for all employees.

If an employee is unsure how to perform a specific job, then it is the employee's duty to report this to their supervisor. An effective health and safety management system requires continuous communication between employees at all levels. It is therefore every employee's responsibility to report immediately any situation that they feel could jeopardise the well-being of themselves or any other person. Strict disciplinary action will be taken against any employee found to be endangering the safety of themselves or others.

The Managing Director has overall responsibility for all health, safety, welfare and environmental matters. The operation of this policy and the associated procedures will be monitored and reviewed by the Safety Director on a regular basis to ensure that they remain current and applicable to the company's activities.

Management, and supervisory staff have the responsibility for implementing the policy throughout the organisation and must ensure that health & safety considerations including fire prevention are always given priority in the planning and day-to-day supervision of all work.

Chris Morgan

Managing Director
